## September 2019

### A message from Kris,

As the Summer of 2019 draws to a close, I'd like to share a happy memory made here in the Laurel Highlands during the summer. My husband and I love traveling, camping, and our dog Wellsee. After months of stressful work and preparation at our jobs, we decided it was time that we take a vacation—a “stay”cation, in fact. We took our camper to one of the many wonderful campgrounds in the Laurel Highlands, **Mountain Pines Campground**. As an Air Force mom having made a great deal of sacrifice, but also having the opportunity to travel around the country and see campgrounds in state and national parks as far as Vegas, Arizona, Colorado, Wyoming, Utah, Idaho, and most recently Florida, I must say that the Laurel Highlands has a great deal to be proud of.

I cannot express enough how this “staycation” was just what we needed! From the professional and on-task staff, to the pools, fireworks, concerts, DJ's, breakfasts, and snack bars, whether we were looking for some fun or looking to take a load-off, the campground had just what we needed. Even our little dog, Wellsee, joined in the fun during her morning and evening walks on the Rails to Trails Bike Trail near the campground! But this camping experience wouldn't have lasted very long or had been very fun without our daily rations! For food and beverages, we stopped at **G&D Market, Champion Food Mart, Pletcher's Farm Market, and Sarnelli's Corner**; it was such a convenience to not have to spend hours off the mountain, down in traffic, and away from our staycation.

After our staycation, both my husband and I have gone back to work recharged and ready to take on all that living in Western Pennsylvania can throw at you.

So, if you're feeling you need a vacation or just a break in your routine, I highly recommend spending some time at any of the campgrounds, resorts, or lodging facilities in your own backyard—you won't be disappointed!

Sincerely,

**Kris Enberg**

# 6th Annual Shoot for Ralph

This event is being held to remember our brother, Ralph W. Skovira, and is a benefit of the Chestnut Ridge Community VFC, in which Ralph was a member and very passionate about. Ralph joined the department at the age of 16. Tragically he lost his life in a vehicle accident in October 2012 in Donegal Township at the young age of 22. The loss of this brother has left a hole in the heart of the department. We hold this event to always remember him and to remind ourselves how short life can be. It is our hope to share with everyone the importance of Ralph's life and to ensure that his memory is never forgotten by the members of this department and the community members he served. Thank you in advance for helping us make this event happen.

**Bradley A. King, Esq.**  
King Legal Group, LLC  
Jones Mills  
724-836-1500

**Q**

What does “stacking” mean under my auto insurance policy? Is that good or bad to have?

**A**

Stacking in an auto insurance policy is important, because it can increase the amount of insurance coverage you will have if you are in an accident and suffer injuries or damages. Stacking multiplies the limits of Underinsured and Uninsured Motorist Coverage on your policy by the number of vehicles you have on the same policy if you are in an accident with an uninsured or underinsured driver who is at fault. For example, if you have three cars insured under a policy that provides for \$100,000/\$300,000 of Uninsured/Underinsured Motorist Coverage, stacking multiplies these limits by the three cars on your policy. As a result, you will have \$300,000/\$900,000 of coverage if you are in an accident with an uninsured or underinsured driver. Without stacking, you will only have the \$100,000/\$300,000 limits of coverage under the policy regardless of the number of vehicles on the policy.

## Route 31 Corridor Project

The contractor is currently preparing grade for the new roadway from the west end of the project, thru the new intersection at the Turnpike, and up to the intersection with Route 711. Subbase and asphalt are being placed, and new 12-inch concrete pavement will be placed very soon for a portion of the new Turnpike entrance and exit lanes. Once grading is complete on the new alignment, subbase and asphalt will be placed as well. This is anticipated to be completed this summer, with traffic being switched onto the new alignment. Afterwards, construction of the remainder of the Turnpike lanes are anticipated to proceed

thru August and September. Work will also progress to reconstruct the intersection at Route 711. From Route 711 to Route 381, work is anticipated in the next few months to finish this area with final milling, paving, and other miscellaneous work. At the Route 381 intersection, the lower concrete island is going to be removed to address safety concerns with traffic flowing thru this intersection.

All work is weather dependent and is subject to change.
